

# Close Faster by Optimizing Your Journal Entry Process

April 9, 2020

## Program Description

In today's data-driven world, accounting is evolving. Accountants are tasked with doing more with the same resources in less time—all while maintaining the agility to look into and understand the financials at a transactional level.

That's why it's more important than ever to optimize your close and ensure your journal entries aren't muddying the water.

Join this webinar to explore how the number of journal entries your organization books is directly correlated with the time it takes to close. You will gain a simple and repeatable process for:

- Taking inventory of your current journal defects and figuring out your focus
- Analyzing why a journal entry was made and optimizing your close processes
- Leveraging systems to create a sustainable process

## Registration

Registration is free

## Who Should Attend?

## Refunds and Cancellations

Not applicable as the seminar is free to attendees

- CFOs
- Directors of Accounting/Finance
- Controllers
- Accounting Managers
- Auditors
- Staff Accountants
